## Youth Capacity Building Workshop towards UN's Sustainable Development Goals

国連持続可能な開発目標に向けた青年キャパシティ・ビルディング・ワークショップ

From January 1, 2016 until 2030, United Nations adopted Sustainable Development Goals (SDGs), with 17 goals and 169 targets, to end poverty, protect the planet, and ensure prosperity for all. These goals are applied to all countries and regions, and for the next 15 years they will be the critical tools in the dialogs to solve environmental, economic and social issues. Youth capacity development towards those issues will be essential to ensure the successful achievements of those goals. This Workshop is jointly created by Kanazawa University and United Nations University, and it aims to create the platform for the younger generations to come together and deepen the discussions on SDGs and share the regional issues.
