

Understanding Present Environmental Situation of Marginal Sea

Date: 23 January 2019

Time: 13:30-19:00

Place: Meeting Room at Natural Science Library, Kakuma Campus, Kanazawa University

13:00-13:30 Reception

13:30-13:35 Opening remarks Director of the INET, S. Nagao

13:35-15:05 Oral session I

13:35-14:05

Seasonal Variability of Carbonate System of Razdolnaya River Estuary

Dr. Pavel Tishchenko

14:05-14:35

Exchange of water in the estuary of the Razdolnaya River (Amursky Bay, the Sea of Japan) in the low water regime of the winter season and in the flood regime of the summer season

Dr. Pavel Semkin

14:35-15:05

Submarine groundwater discharge in the Siberian Arctic seas

Dr. Aleksandr Charkin

15:05-15:30 coffee break

15:30-17:00 Oral session II

15:30-16:00

Convection of surface water in the northeastern Sea of Japan: Implications from vertical profile of ^{134}Cs concentrations

Dr. M. Inoue

16:00-16:30

Aromatic polycyclic aromatic hydrocarbons and nitro-polycyclic aromatic hydrocarbons in the East Asia area

Dr. N. Tang

16:30-17:00

Toxicity of the polycyclic aromatic hydrocarbons on aquatic animals

Dr. N. Suzuki

17:00-17:15 coffee break

17:15-18:55 Discussion

18:55-19:00 Closing remarks Director of the POI, V. Lobanov
