

15:00 台湾：社会・歴史と災害を考えるための導入・・・前野清太朗（金沢大学）

15:20 921 地震と農村の回復力：台湾南投県鹿谷郷の事例研究・・・曾 獻緯（東呉大学）

16:00 台湾の地方自治体における地震対応の最近の問題と課題
・・・李 香潔（台湾防災技術センター）

16:30 総合討論・・・古泉達矢（金沢大学）

17:00 閉会の挨拶・・・唐 寧（金沢大学）

The 9th International Thematic Symposium of Department of Inter-
institutional Collaboration, Institute of Nature and Environmental
Technology, Kanazawa University

Environment and the Sustainable Development of Rural and Urban Societies in East Asia - Towards Recovery from the 2024 Noto Peninsula Earthquake Disaster -

Date: 4th March, 2025, 1:00 pm~

Venue: Library Building, Graduate School of Natural
Science and Technology, Kanazawa University

Languages: Japanese, English, Chinese

The Department of Inter-institutional Collaboration has been opening International Thematic symposia annually to examine and investigate the social environments of both rural and urban areas in East and Southeast Asian countries, in comparison with the current situation of Japan's rural societies and consider their sustainable development.

This ninth international thematic symposium will focus on the recovery and reconstruction of local communities from the Noto Peninsula Earthquake Disaster of 2024 and will present topics on rescue activities for disaster-affected materials and cultural assets, as well as the recovery efforts of local manufacturing industries. Further, invited researchers from Taiwan will report on examples of disaster recovery activities in the region. On the basis of these presentations, we would like to deepen the discussion based on specific cases in both, to recover and reimburse rural and urban societies after earthquake disasters in East Asia.

Programme

- 13:00 *Opening Remarks ...* TSUKAWAKI Shinji (Kanazawa University)
